PCB Fabrication And Testing Facility

- Name of the Equipment : Clean Room Facility for PCB**
- Description :**
- 1.A highly clean controlled environment centered on FFU (Fan Filter Unit) which is designed according with Class 10,000 PPM experimental environment.
 - 2.Equipped with separate constant temperature and constant humidity air-conditioner to adjust temperature and humidity inside MCR, applicable to areas where constant temperature and constant humidity are required.
- Stock Entry :** Non Consumable Stock Register UPE-ESD
Volume I Page. No – 11
- Utilization :** Research and Product developers from among Indian Universities, National Institutions, National R&D labs and Industries.
